(54) Title: ADHERENT COVER AND DISPENSER

FIG. 1

(57) Abstract: A dispenser for sticky articles and a sticky article, A sticky article comprising: a skin-adherent cover, a first and a second handle and a first and a second protective element, the cover comprising: a side comprising skin-adhesive material, an opposite side and edges; the protective elements protective of the cover, each protective element extending to or beyond all edges of the cover, the first said protective element adhering to the cover opposite side and the second said protective element coupled to the cover side comprising skin-adhesive material, said first handle coupled to the first protective element and said second handle coupled to the second protective element, said first protective element configured to adhere to the cover less than the cover adheres to skin, wherein the article is configured to allow detachment of said second element and second handle from said cover when said first and second handles are pulled apart.
